There is a lot of brilliant things in New York but the iconic spectacular statue of liberty is even better. You would have to climb 354 steps to reach the top, it is very tiring but the views are worth it.

The helicopter ride is for people that cant walk that far , but

The views are just as good.

As well as the statue of Liberty, but the Empire state building

has beautiful views. You also have to climb 354 stairs. It has 102 stairs and it is very tall.
