

Diving into Mastery

Rounding to the Nearest 10

twinkl

Please use the teaching slides from Monday's lesson to help remind the children about the rounding to the nearest 10 and 100 rule.

Aim

- Round any number to the nearest 10, 100 or 1000.

Round each number to the nearest ten to match the comet to the correct planet.

A space-themed activity area featuring several planets and comets. The planets are: a red planet with the number 280; a striped orange planet with the number 300; a ringed orange planet with the number 310; a blue and green Earth-like planet with the number 300; a ringed orange planet with the number 320; and a yellow planet with the number 290. The comets are: a grey comet with the number 304; a grey comet with the number 317; a grey comet with the number 286; a grey comet with the number 321; a grey comet with the number 294; and a grey comet with the number 305. The background is a dark space with stars and a bright sun on the left.

Helen is checking the gauges on her control panel and rounding the readings to the nearest ten. Check her readings and correct any mistakes.

Can you explain any mistakes that she has made?

Rounded to the nearest ten, this reads 560.

Helen is _____
because _____

Rounded to the nearest ten, this reads 600.

Helen is _____
because _____

Rounded to the nearest ten, this reads 350.

Helen is _____
because _____

Read the clues below.

What could the number be on the side of the rocket?

- It is a three-digit number that is less than 300.
- When the number is rounded to the nearest ten, its digits are all even.
- The tens digit is three times the hundreds digit.

Find all the possible answers.

The rocket number rounds to _____.

This means the number might be _____.

Look at the items for sale in the space museum shop.

Gloves
£12

Hat
£27

Badge
£8

Moon Rock
£39

Model Rocket
£12

Buzz wants to buy two items. He rounds the prices to the nearest £10 and finds that the rounded total of his two items is £70.

Which two items did he choose?

Buzz must have chosen

Is his rounded total greater or less than the actual total?

The actual cost would be £_____

This is less/more than the actual total.
