

## From w/c 20<sup>th</sup> April

This is a suggested timetable to support families with providing some structure to the day – if wanted. All work can be found on the school website under year group headings as before, along with general links and ideas of things that can be accessed at home. It is by no means a ‘must do’ timetable, but may support families with children in different year groups. We encourage lots of real life learning alongside this: baking, creative play, construction, computing etc...

We will be uploading links to White Rose Maths lessons each week for all year groups – there is one for each day in line with what would be being taught in school for each year group, with videos and work to complete.
