

Online safety.

Going online is really exciting for children, It is a way to get in touch with friends. Though it can be dangerous too.

Bullying

While on the internet you may be bullied. It may be because of a certain picture or video you've made. Most of the time this person is a complete stranger. Always tell an adult if this happens

Personal information

You may have an online game on your device. If you meet a "Friend" don't know don't trust them completely. They may ask for personal information. This is your name, address, the country you live in, school or age. Don't tell them anything! It can put you in danger, there not always who they say they are.

Virus's

You might come across a link saying I will give you free something. Don't click it this is the cause of virus's hacks or your device breaking down completely.

BEWARE

WHAT YOU SHARE
