

# Inside my Head

Your artwork today is to create your own 'Inside my head' piece. It should include anything and everything you think about.

What you need: old magazines or newspapers, glue, paper, a pencil, colouring pencils or pens. If you don't have all of these, you can use just paper and a pencil.

What you need to do...

- Draw a rough outline of your shoulders and head—no hair please! You should be facing the side.
- Create a big eye and put it in the right place
- Cut out photos (carefully) and glue them (even more carefully) between your head and shoulder space. If you do not have a magazine/newspaper, glue, you can draw your own ideas on your paper.
- Once your head is complete you can decorate your background.
