

# Parts of the Body Name Game

## Instructions

This game can be played in pairs or in two small teams.

Each doctor (or team of doctors) places all their cure cards on their patient's bed, scattered around and face down. The red bed has red cards and the blue bed has blue cards. The doctors take it in turns to try to help their patients. The first doctor takes two cards at random and says the correct French word. If they can correctly name the body part in French, they help the patient and the cards are removed from the bed. Any parts that they can't name or name incorrectly must be returned. The first doctor to cure their patient of all their ailments is the winner.
