

Friday 15th January

L.O. To take inspiration
from the Greats.

- Use some of the ideas of artists studied to create pieces.

William Morris used nature to inspire his work. He drew plants, flowers and animals in his prints.

We'd like you to create your own William Morris style print.

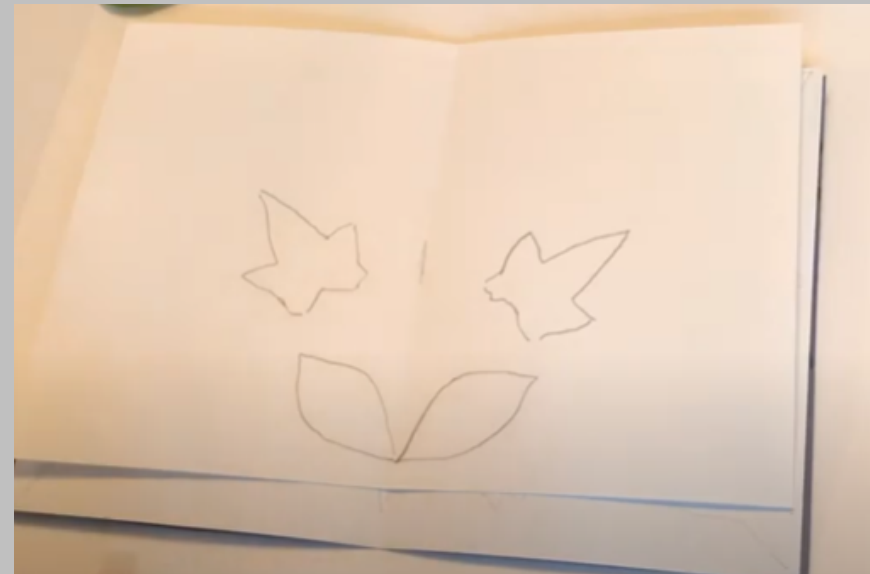

We'd like you to use what you can find in nature as templates for your piece.

You can collect leaves and twigs to draw round to make a pattern or you could even stick them on!

There is some leaf templates if you want to use those to draw around instead.

You can then colour your design in.
