Mr McGregor's garden

Peter Rabbit carefully entered Mr McGregor's garden using the gate in the east. He cautiously looked all around him. He saw big, juicy orange carrots in the west, opposite the wooden gate. In the north there were lots of tasty radishes. There was a watering can in the east, next to the radishes. Peter Rabbit saw lots of delicious onions in the south. Below the radishes, Peter saw a scarecrow with a light blue jacket. Peter Rabbit saw Mr McGregor working in his toolshed. The toolshed was in the west of the garden, it was south of the carrots. There was a pond filled with lily pads, it was in the east, north of the wooden gate.

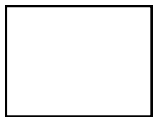

The trees are in the north west of the garden.

Peter could see brightly coloured flowers in the south east.

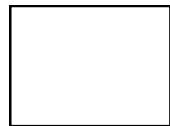

The plant pot is in the north east.
