

Friday 5th March

L.O. To use collage to create a  
landscape.

L.O. To use collage to create a landscape.

Today we are going to use torn paper to create a landscape.

L.O. To use collage to create a landscape.

You don't have to use the correct landscape colours, so you can have yellow mountains and a pink river if you like.

L.O. To use collage to create a landscape.

Tear and arrange your paper first before you glue anything down, then you can move your design until you are happy with it.

*L.O. To use collage to create a landscape.*
