

L.O. to shape and lines for
effect

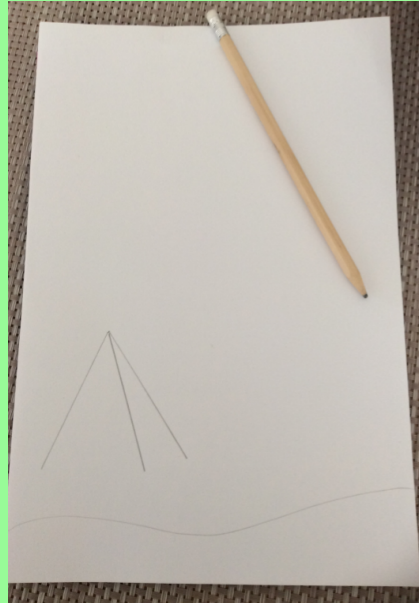

You are going to use your skills of drawing pyramids to create this modern art scene of Egypt!

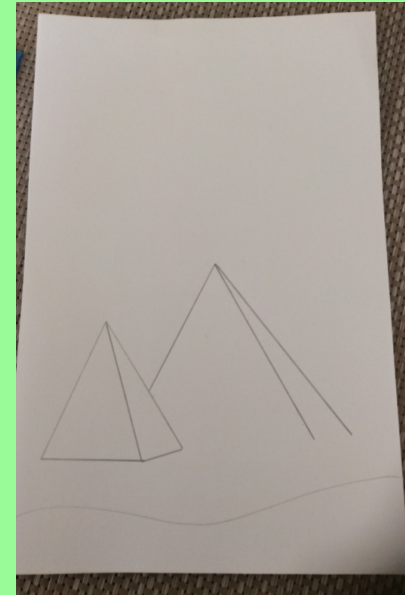

We need to focus on the different shapes, patterns and lines to create this piece!

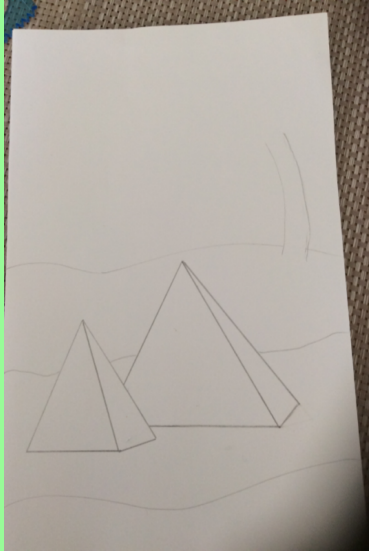

1. Start by drawing a curved line at the bottom of the paper.

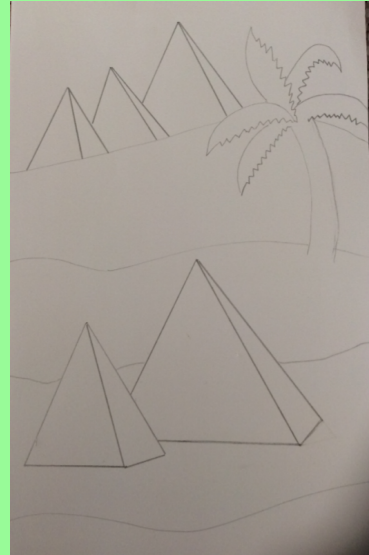

2. Then begin to draw your smaller pyramid as shown before. Use a ruler!

3. Add your second larger pyramid behind the smaller one.

4. You can then add more curved lines to create sand dunes. Begin to add your palm tree to one of the sand dune layers.

5. Add leaves to your palm tree and additional pyramids to your picture.

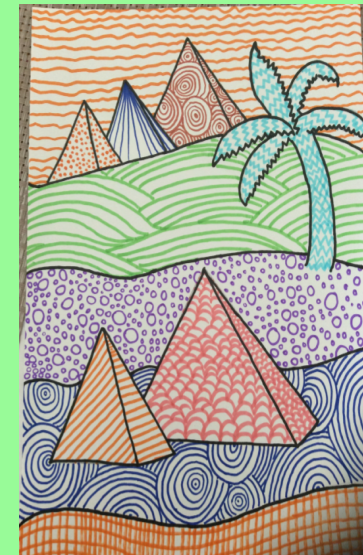

6. Once you have completed drawing your scene, you can then choose different patterns to fill each section.

7. Choose bright, eye-catching colours to make each section stand out.

8. Keep going until every section is filled with a different pattern.

9. Once you have completed your picture, add black lines to each part to make it stand out.

To create your picture you could use felt tip pens, pencils, paints - you could even use chalk outside!

We would love to see your Egypt scene pictures - take a photo and email it to: info@holytrinity.leeds.sch.uk

Then we can add them to our Year 4 art gallery!
