

LO: Collect information, sketches and resources
and present ideas imaginatively in a
sketchbook

Architecture of New York

As part of our learning about New York, we have learnt about the Statue of Liberty, Empire State Buildings and the skyscrapers that make up New York's skyline. In your sketchbook you are going to create a "New York" themed mood board. Think about the different architecture, physical and human features that make New York!

Look through your sketchbook of our past art lessons, we can create a mood board taking inspiration from everything we have learnt! You might focus on the skyscrapers, Empire State Building or Statue of Liberty. You could add pictures, writing, lift up flaps, pockets etc! Make sure you have a bright and colourful title, "New York" or "Big Apple." You could cut in half a picture and complete the other half. Be creative with your presentation!

Use the images in your sketch book.
