

LO: I understand the meaning of
“Stereotypes” and “Discrimination”

What information can you find out about these people and what they are good at?

Do you think that we have stereotyped some of these people in the pictures?
For example, how do we know that this man doesn't love rap music?

How do we know that this boy doesn't love ballroom dancing?

We should never 'Judge a book by its cover'.

Copy the definitions onto your sheet.

Discrimination – unfair treatment of one particular person or group of people. Usually the different treatment is because of the person's gender, religion, nationality, culture, race or other personal traits.

A **stereotype** - is an idea about a group of people that's believed by a lot of people. Stereotypes are not based on fact. Instead, stereotypes are based on opinions or feelings.

Stereotypes are often negative because they assume everyone in a certain group is the same or acts the same way. All groups are made up of people who have different personalities, strengths and weaknesses.

A stereotype about a certain group of people could turn into a prejudice and discrimination.

Spy

Before she was a famous chef and TV personality, Julia Child was a top secret researcher for the Office of Strategic Services (OSS), known today as the CIA. She was too tall to enlist in the Women's Army Corps during Second World War, so joined the spy network created by President Franklin Roosevelt.

Don't judge a book by its cover!

Chetan's Story

- Why do you think Chetan was treated this way?
- How do you think it made him feel?
- What could he do when he was feeling this way?
- Who else was affected by what Chetan was experiencing? Why?

Exploring Discrimination

- Gender

- Race

- Religion

- Disability

- Culture

Everybody is **different** and we mustn't categorise people into groups! Just because you are a boy it doesn't mean that you love football, and just because you are a girl it doesn't mean that you love pink! We are all **unique** and we shouldn't make assumptions about people based on their race, gender or religion!
